

How to Guide

Downloading and installing New Bizhub print drivers

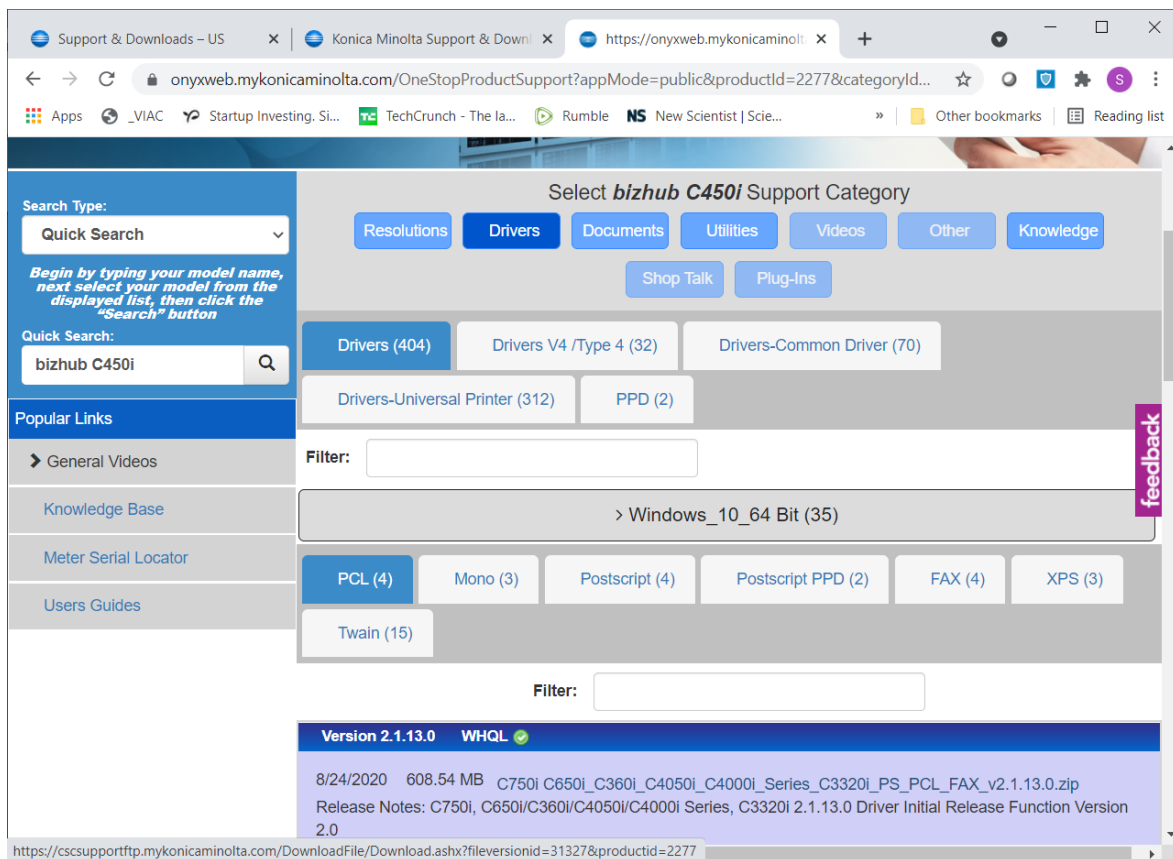

Go to <https://kmbs.konicaminolta.us/kmbs/support-downloads>

Under Customer Resources click on “Drivers and SDS”

On the left side quick search enter your model and select from the list

The screenshot shows a web browser window displaying the 'Self-Help Product Support' page. The browser's address bar shows the URL: <https://onyxweb.mykonicaminolta.com/OneStopProductSupport?appMode=Public&targe...>. The page header includes navigation links for 'Home', 'Self-Help Product Support', and 'Sales'. The main content area features a large blue banner with the text 'Self-Help Product Support'. Below the banner, there is a search section with a 'Search Type' dropdown set to 'Quick Search'. A 'Quick Search' box contains the text 'bizhub C450' and a search icon. A dropdown menu is open below the search box, listing the following options: 'bizhub C450', 'bizhub C450i', and 'bizhub C450P'. To the right of the search box is a blue box with the text 'IMPORTANT INFORMATION'. Below this box, a paragraph reads: 'Please enter the first few characters of your product into the quick search box, select the model from the drop-down and click the search icon [Q]. All available documents and drivers will be returned for you to select from.' On the right side of the page, there is a vertical purple 'feedback' button. The footer of the page contains social media icons for Facebook, Twitter, LinkedIn, and YouTube. The Windows taskbar is visible at the bottom of the screen.

Select the tab for Drivers then select your operating system. Select either PCL or Postscript, and normally the one at the top of the list is the most current driver version. Download and unzip the file.

Run the "Setup64" for newer computers with Windows 64bit OS. Some older computers will need to run the 32bit version "Setup". Don't worry it will not let you install the wrong one.

Agree to the software license then follow the prompts to install.

Select Printer/MFP to Install

Specify Printers/MFPs

Select from the list of detected Printers/MFPs.

Specify manually.

Device Name	Address/Port	Status
<input type="checkbox"/> (Select All)		
<input type="checkbox"/> KONICA MINOLTA bizhub C250i	192.168.0.155	Installed
<input type="checkbox"/> KONICA MINOLTA bizhub C450i	192.168.0.222	Installed
